Application for Membership in the International Asteroid Warning Network (IAWN)

30 October 2025

Dear IAWN steering committee,

We would like to express our sincere intention to join the International Asteroid Warning Network (IAWN) and to bring our modest contribution.

We are the owners of **PS Observatory**, Parjol, Romania, IAU code **M35** – a fully remote automated observatory in a Bortle 4 area, which conducts follow-up activities for the NEOCP since december 2024, contributing so far with more then 70 discovery MPECs and more the 110 MPECs.

Our equipment is composed of an RC 10" f/8 with Touptek ATR2600MM camera for NEA, ASI 432MM camera for occultations, an iOptron 3" Inline Automatic Focuser on a CQ350 mount.

At the national level, we coordinate with other Romanian observers within a small network that includes ROASTERR-1 Observatory **L04** and Starhopper Observatory **M45**.

We hope to soon become a part of your active community and we declare that we have read the Charter and Statement of Intent of IAWN and understand the obligations of the members.

Best regards,

Radu Anghel

Arina Anghel

PS Observatory – IAU code M35
