Dear Dr. Tim Spahr and IAWN Steering Committee

On behalf of the Explorer Observatory, with code MPC-M19, I express my intention to join the International Asteroid Warning Network (IAWN).

The Observatory is engaged in asteroid and comet observation activities in photometry and astrometry and making light curves to measure their rotation. The observatory is equipped with a 0.30 meter f/8 reflector and Moravian G2 4000 mono & Atik 420 mono CCDs and is constantly conducting follow-up observations for NEOCP, comets and other asteroids.

I hope to join your community soon and to participate actively.

Kind regards

Zlatko Orbanic
